WORLDS COLLIDE

Wizards and witches of all types have been spotted in our fair city! That winged creature you see might not be a dementor but a flying monkey. Be vigilant. Explore every street and report back on what—or who—you find.

Students from Hogwarts will be seen out and about this weekend practicing their wand dueling. They'll span the city from **Chicano Boy Taco** to **Hotel 24 South**. "Be careful out there." Headmaster Albus Dumbledore says, with a knowing wink.

The car that flew!

Residents of **Bridgewater Retirement Community** shocked eyewitnesses by taking a joy ride in an enchanted vehicle. The modified Ford Anglia carried them over the Blue Ridge Mountains before landing against a tree. No one was harmed in the incident.

RARE TORNADO WARNING IN EFFECT

An unusual type of tornado has been reported by patrons of **Reunion Bakery**. This weather pattern brings spinning cows, women on bikes, and entire houses in the air. This type of storm only occurs once every century.

CONSTRUCTION ON THE YELLOW BRICK ROAD IS NOW UNDERWAY

Volunteers are needed to help fill in portions of the new roadway which will connect **The Staunton Farmers' Market** directly to The Emerald City.

Heed the work zone!

"I want them returned to me. No questions asked."

The citywide search for a resident's missing shoes is still underway.

The red slippers were most recently seen at **The Depot Grille** and are considered very valuable. Please contact Oz Land security for details.
